Opening and Running a successful business takes time, energy, motivation and a bit of luck. The right help at the right time can make all the difference between failure and success. Besides access to capital, credit and information business owners also need services that help serve their customers and increase their sales and user friendly access to information all along the way

TBDC provides resources for any size business and entrepreneurs. Our staff maintains the highest ethical standards of confidentiality with clients. The center is staffed by professionals with proven ability to promote growth, innovation, profitability, increased productivity and lower current operating costs of any business. Service we currently offer are reduction in your credit card processing rates and fees, lower energy bills at your business, low cost cash advances and unsecured business loans.

The TBDC is organized to work with large vendors that can provide registered Business Owners better rates, costs, and service for services and expenses business already incur. We do not charge you the merchant for our services, all fees are paid by the Vendors. Programs do not require the merchant to pay any money to start saving money at their business or change the equipment or procedures currently in place, the only thing that changes is what you pay. After all you went into business to make money, not to spend it, Right?
